

THE HERITAGE COLLECTION

The oldest switch makers of India.

PROUDLY
OLD-FASHIONED
SINCE 1935

Technology in its classical form...

The Heritage Collection consists of a range of classical switches, re-designed to meet the present day safety requirements along with a performance which cannot be matched by any other switch. This range has been created for lovers of heritage. The displayed ranges in this catalogue will reveal the excellence of quality with metallic finishes that have not been seen before. Our R&D team has put in their best in creating this beautiful range which will give a new look to the interiors for years to come. Heritage range is available in 24kt Gold Plating and in many other metallic finishes. Heritage range is specially lacquered so that the rich look of the product sustains for years to come. Like jewelry, the installation of this range will make you proud of your beautiful home. This range might be a little bit expensive but when you go deeply into the technical features, you will definitely appreciate our inputs and would agree that we are giving you the best value for your money. Being the oldest switch makers of India, we are proud to say that our plant is one of the best equipped to produce the highest quality products. In spite of all this, we have not left our old traditions, as we still have a highly dedicated team engaged in the quality control and hand testing. Each and every switch or article is hand tested before leaving our factory. So when you buy our products you have surely bought the best.

THE Taj

A Master piece that is one of its kind.
